SHORE ATHLETIC CLUB OF NEW JERSEY

"Promoting the Olympic Sport of Track and Field Since 1934"

WELCOME TO THE 2ND ANNUAL BIG BANG MILE AND SCIENCE FESTIVAL

From the Shore A.C. Club President Walter MacGowan

Welcome to the Shore Athletic Club's second annual Big Bang Mile and Science Festival. We hope you enjoy what our event offers: a flat mile course with just one very wide turn, professional timing, highly competitive age group heats, distinctive awards, the nearby amenities of Bell Works, and a great event name.

What about that event name? Well, the Big Bang was discovered not far from Bell Works. In 1964, two Bell Laboratories radio astronomers discovered more microwave radiation coming from the sky than they could at first explain. Consultation with scientists at Princeton University led to the explanation: they were looking at leftover light (with highly red-shifted wavelengths) that was generated by the early universe 13.8 billion years ago!

To honor that discovery, Shore Athletic Club created a "mash-up". We combined a running race with a science festival. Runners and others can come to the science festival, which precedes the mile races, and listen to talks and visit booths on matters of scientific interest. This year, we have also invited some brainy high school students to share their award-winning science projects. Some of these students will then join the runners and test their legs in the high school mile.

This year's edition of the Big Bang Mile serves as a team championship race in the USA Track and Field New Jersey Association's 2022 Paul Miller Auto Group Grand Prix series of races. As such, it will attract excellent teams of runners from throughout the state of New Jersey. Team competition will take place in "open" and "masters" divisions, with masters categories consisting of 10-year age groups starting with 40+. This race will also attract some top runners from outside of New Jersey with the allure of an exceptionally fast course. This year, our race also features team competition among high schools, middle schools, bars, restaurants and gyms. Calculating team results in an instant requires top-notch timing services. We have that with CompuScore.

Runners will be vying for some special prizes. The top three USATF-NJ male and female winners overall, plus the top three USATF-NJ masters male and female age graded winners, will receive high-quality running shoes from 361. In addition, distinctive plaques designed by famous sculptor Brian Hanlon will be presented to the top 3 men and women overall, the top 3 masters men and women based on age grading, the top 3 masters men and women based on time, and the top 3 boys and girls in the high school and middle school mile.

We hope that you enjoy the Big Bang Mile and Science Festival!

THE STORY BEHIND THE BIG BANG MILE

The Bell Works building was once a primary location for Bell Laboratories. “Bell Labs” attracted top-notch scientists to conduct basic research that might advance telephony.

Two such scientists, Arno Penzias and Robert Wilson, studied radio signals from space in support of the Telstar project. In 1964, to their surprise, they observed a background noise coming from every direction in the sky. Wherever they pointed their radio telescope, they measured the same frequency and strength of microwave radiation.

Puzzled, Penzias and Wilson conferred with colleagues. Princeton University astronomer Robert Dicke revealed they had found evidence for the Big Bang. This is a theory that the universe started with an explosion 13.8 billion years ago. For their important contribution to science, Penzias and Wilson were awarded the Nobel Prize for Physics in 1978.

The radio telescope used by Penzias and Wilson still stands today. It is located on top of Crawford Hill, about 2 miles northwest of the Bell Works facility. A nearby plaque explains its significance. It is worth a visit.

Shore Athletic Club dedicates the Big Bang Mile Race to scientists everywhere. We hope that runners draw inspiration from this story to learn more about STEM(Science, Technology, Engineering and Mathematics) and perhaps even pursue a STEM career. Aim high!

SCHEDULE OF EVENTS: SCIENCE FESTIVAL

2:00 PM - Welcoming Remarks

2:10 PM - Visit Booths

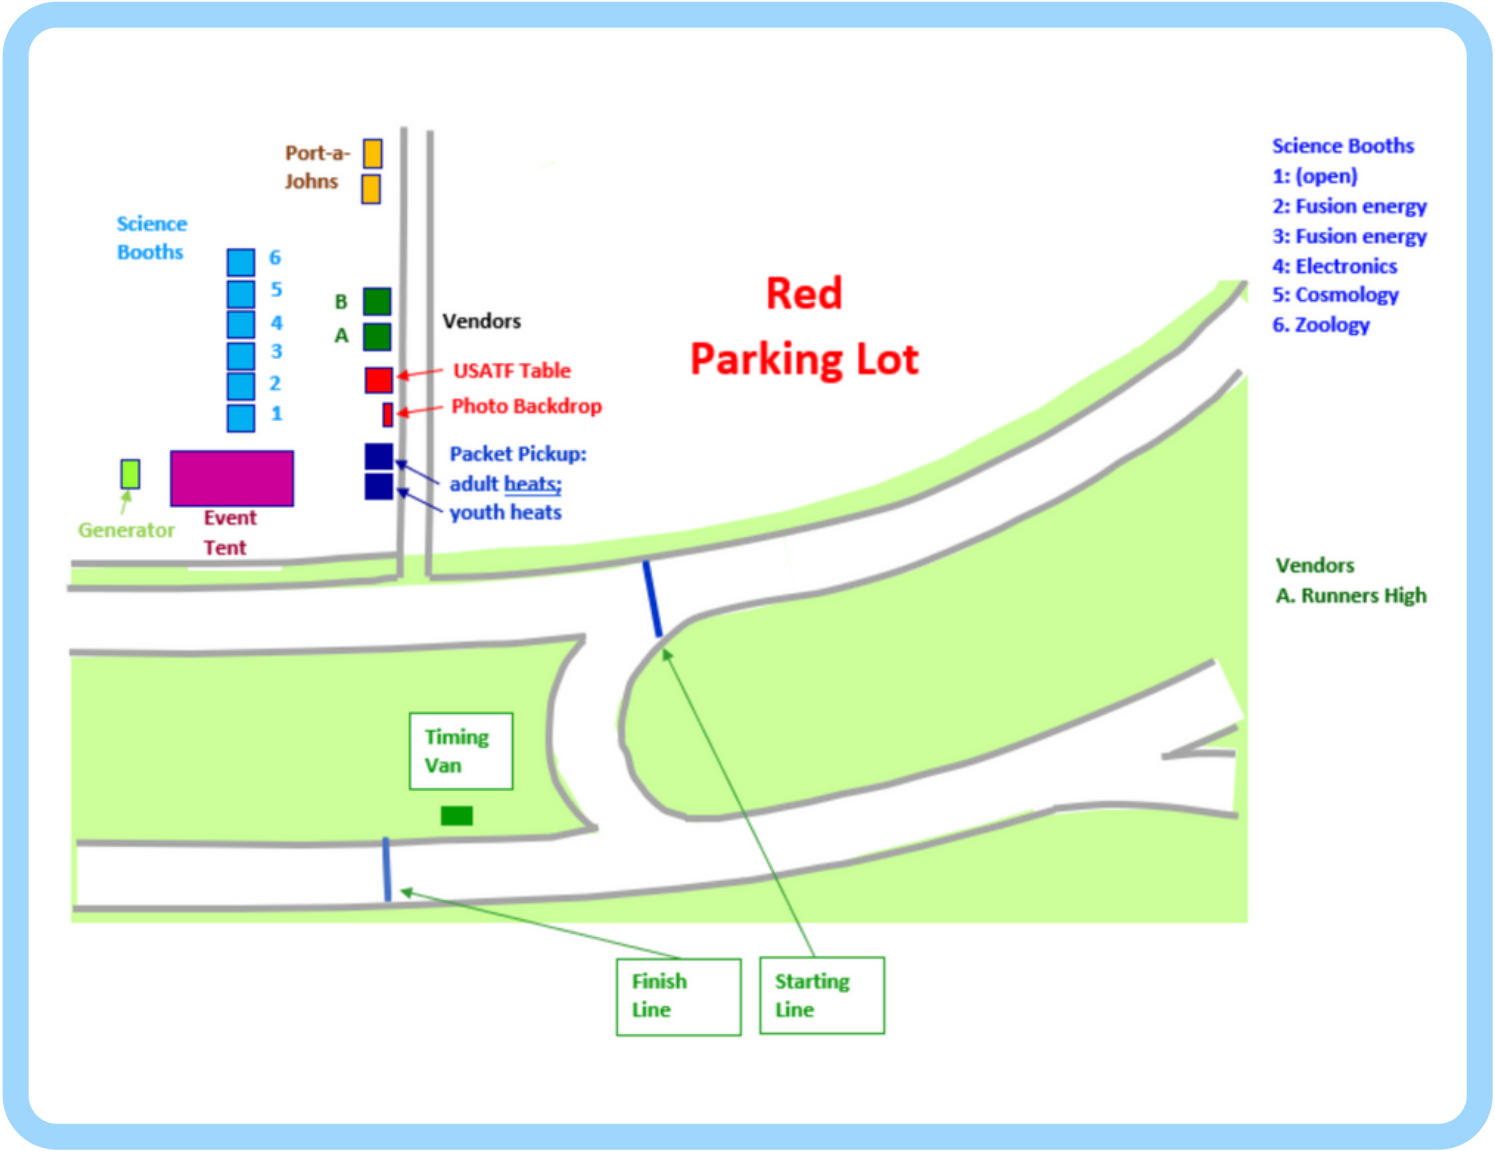

2:30 PM - Talk: Big Bang Discovery

3:00 PM - Visit Booths, See High School Displays

3:30 PM - Talk: Fusion Energy

4:00 PM - Conclusion of the Science Festival

SCIENCE FESTIVAL MAP

SCIENCE FESTIVAL BOOTHS

Booth 2: Fusion Energy "Fusion Energy & Plasma Physics"

-- Presented by: The Princeton Plasma Physics Lab

Booth 3: Fusion Energy "Fusion Energy & Plasma Physics"

-- Presented by: The Princeton Plasma Physics Lab

Booth 4: Electronics "How Integrated Circuits are Made"

-- Presented by: Eric Westerwick

Booth 5: Cosmology

-- Presented by: Rutgers Astronomical Society

Booth 6: Zoology "Kim's Critters"

-- Presented by: Kim Anicito

SCIENCE FESTIVAL SPEAKERS

2:30 PM - "The History of the Theory of History"

**Presented by: The Rutgers Astronomical Society
(Kyle Conway, Arya Lakshmanan, Brandon Shane, Megan Pirecki
and Nora Thompson)**

3:30 PM - "Fusion Energy: Star in a Jar"

**Presented by: The Princeton Plasma Physics
Laboratory**

**(Al Denis, Alex Pantry, Djin Patch, Tony Qian, Sophie Redd and
Jaela Whitfield)**

SCIENCE FESTIVAL HIGH SCHOOL SCIENCE PROJECTS

**Rayan Jawa of Holmdel High School Presents:
"Monitoring the Cellular Immune Profiles of COVID-Vaccinated
Donors Using Silico-Designed Immunogenic Epitopes from
SARS-CoV-2 Proteins"**

**Olivia Reiber of the Marine Academy of
Science and Technology Presents:
"The Dynamics of Flooded and Non-Flooded Maritime Forrests
at Gateway National Recreation Area Sandy Hook Unit"**

**Ishani Singh of High Technology
High School Presents:
"Detection of Bullying Comments on TikTok"**

SCHEDULE OF EVENTS: THE BIG BANG MILE

4:00 PM - Race Packet Pickup Opens

4:30 PM - Shore AC 2021 Awards Begin

4:50 PM - Shore AC 2021 Awards End

5:00 PM - Community/Family Mile

5:25 PM - HS/MS Mile

5:40 PM - Women's 50+ Mile

6:00 PM - Men's 60+ Mile

6:20 PM - Women's 40+

6:40 PM - Men's 50+ Mile

7:00 PM - Men's 40+ Mile

7:15 PM - Women's Open Mile

7:30 PM - Men's Open Mile

SCHEDULE OF EVENTS: THE BIG BANG MILE AWARDS

6:15 PM - High School & Middle School Teams

7:00 PM - Master's Women

7:45 PM - Master's Men

8:00 PM - Open Women

8:15 PM - Open Men

THE BIG BANG MILE COURSE MAP

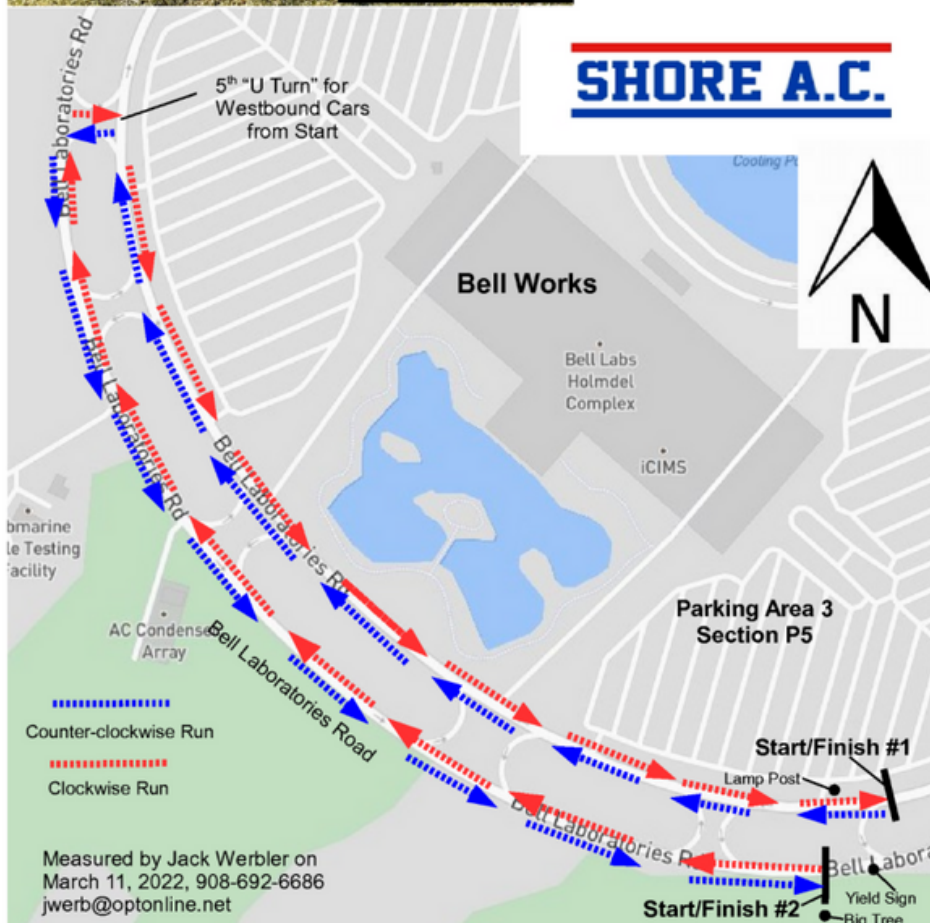

BIG BANG MILE 2022

Holmdel, NJ
Course Map
Not to Scale

Course Description: The race course is a one mile loop run entirely on Bell Laboratories Road adjacent to Parking Area 3 Section P5. The course can be run in either direction. Regardless of which starting line is used, runners take the 5th "U turn" for westbound cars after the start line, before heading back to the finish line across the grass median from the start.

Start or Finish #1: On the westbound side of Bell Laboratories Road adjacent to Parking Area 3 Section P5 at the "U turn," 34' 6" north of the lamp post in the island on the south side of the road, 50' east of the Bell Works directional sign just before the parking lot entrance.

Start or Finish #2: On the eastbound lane for cars of Bell Laboratories Road adjacent to Parking Area 3 Section P5, in line with the big tree on the south side of the road behind the guide rail and the lamp post at the entrance to Parking Area 3, 99' 6" west of the "Yield" sign in the corner of the island on the south side of the "U turn."

USATF Certificate
NJ22006JLW
Effective: 03/15/2022
Through: 12/31/2032

Notes: 1. Runners have the entire road width available to them. 2. Race organizers have a choice of which direction to run the race. 3. Start/Finish lines marked in white paint.

Measured using the full width of the road and the Shortest Possible Route (SPR)
